

## i-close

### Premium closing assistant for the mid-sized and compact classes

Kiekert's latest generation of integrated closing assistant is called **i-close** and ensures that the car doors are always completely and securely closed.

It is over 20 years since Kiekert first revolutionised the automotive market with the invention of the power closing system. Kiekert today possesses by far the greatest experience in these safety- and convenience-enhancing systems.

**i-close** brings a premium function from the luxury class into nearly every segment of the automotive market.

#### Benefits for the OEM
